

ZACH J. BENALAYAT

Product & Business Analytics | API & Product Data Strategy | SQL | Python

703-618-9257 | zacharia.benalayat@gmail.com | Austin, TX

Product and business analytics professional who partners with product and engineering teams to design analytics frameworks, define KPIs, and analyze product usage data to guide strategic decisions. Experience leading analytics initiatives for SaaS businesses, product adoption, and customer engagement using SQL, Python, and BI tools.

TECHNICAL SKILLS

Product Analytics

- Backlog Analysis
- Unit Testing
- Continuous Improvement
- A/B Testing
- KPI Metrics

Analytics & BI Tools

- Power BI
- Looker
- Tableau
- Snowflake

Data & Programming

- SQL
- Python
- R
- Git

Business Skills

- Agile Certified PM
- User Stories
- Functional Requirements
- Technical Requirements
- Creative Problem-Solving

Automation & Workflow Tools

- Jira
- Confluence
- Kanban
- ServiceNow

PROFESSIONAL EXPERIENCE

Product Manager II (Data Operations & Tech Projects), Seamless

May 2024 - May 2026

- **Owned end-to-end development and launch of a B2B Public API**, replicating core platform functionality and enabling enterprise integrations worth **\$750k ARR..**
- **Defined product OKR and analytics frameworks** to measure **API adoption, engagement, and conversion** across customer touchpoints.
- **Analyzed behavioral data** across search, discovery, and **purchase funnels**, identifying UX improvements that **reduced search time by 25%**.
- **Defined product roadmap for API, Seamless Search, MCP, and Seamless Research** product lines using **Epics, Features & User Stories**
- **Designed internal analytics dashboards and reporting workflows** enabling **executive leadership, sales, and Rev Ops teams** to monitor product performance and customer behavior.
- **Spearheaded overhaul of identity resolution process**, improving **contact coverage by 10%** and **data quality by 25%** over the course of 3 months.
- **Automated analytics and reporting workflows using Claude and N8N**, reducing **idea-to-design cycle time by 15%**.

Business Systems Analyst (Sales Analytics), Inseego

May 2022 – May 2024

- Analyzed customer, sales, and federal contracting datasets to identify **microtargeting opportunities** that resulted in **\$1M+ in enterprise contracts**.
- **Developed analytics frameworks** that enabled product and customer success teams to track **adoption, engagement, and bundling performance for US Navy contracts**.
- Conducted market and competitive data analysis to support **product positioning and strategic partnerships** with telecommunications carriers.
- Collaborated with cross-functional teams to translate **business needs and data insights into technical product requirements while adhering to DCMA 14-Point Principles**.

Systems Analyst, Caseworthy

Aug 2019 – May 2022

- Built SQL stored procedures, database tables, and ETL pipelines supporting analytics and reporting workflows for nonprofit and government clients.
- Developed scalable software configurations that accelerated **implementation timelines for new customers**.
- Collaborated with customer success teams to guide clients in defining **functional requirements and analytics needs**.

Data Architect, Latin Hyper-Texts, Butler School of Music

Mar 2018 - Jan 2023

- Designed and implemented relational database architecture supporting **200K+ digitized manuscripts** and large-scale research datasets.
- Structured metadata frameworks enabling efficient **data retrieval, analysis, and digital archiving**.
- Analyzed training feedback and user data using **Qualtrics** to improve documentation and onboarding materials, reducing required training sessions by **33%**.

EDUCATION

Bachelor of Arts in Classical Languages & Archaeology

Dickinson College

- Minor: Anthropology

Master of Science, Information Studies

University of Texas at Austin

- Certificates: Data Management, Digital Scholarship
